

1970 Buick GSX Prototype Show Car Muscle Car Of The Week Episode 284 Video V8TV

**** UPDATE:** It's with heavy hearts that we regret to inform that the owner / caretaker of the 1970 Buick GSX "Prototype" show car Brad Conley has passed. He's owned this extremely special car since 1978, and it is largely responsible for our host Kevin Oeste's obsession with Muscle Cars. Please join us in extending our condolences to the Conley family, but also our deepest appreciation to Brad for finding, restoring, and showing this amazing car that touched so many lives.

Most of us have a particular car that left a mark on us, and this Muscle Car Of The Week left a burnout on host Kevin Oeste's brain like a Buick 455 burning bias ply tires across a slick parking lot. This week, Oeste is united with a childhood dream car, seeing the 1970 Buick GSX Stage 1 "Prototype" show car in person for the first time at the 2018 Muscle Car and Corvette Nationals in Chicago. It was one of many special moments from the MCACN show, and a great example of why all muscle car fans should attend this amazing event. Special thanks to car owner Brad Conley for the personal tour of the GSX.
